In connection with the placement of the shares in the Company, Goldman Sachs, acting for the account of the underwriters, will act as stabilization manager (the "Stabilization Manager") and may, as Stabilization Manager, make overallocments and take stabilization measures in accordance with Article 5(4) and (5) of the Regulation (EU) No 596/2014 of the European Parliament and of the Council of April 16, 2014 on market abuse in conjunction with Articles 5 through 8 of Commission Delegated Regulation (EU) 2016/1052 of March 8, 2016. Stabilization measures aim at supporting the market price of the shares of the Company during the stabilization period, such period starting on the date the Company's shares commence trading on the regulated market (Prime Standard) of the Frankfurt Stock Exchange (Frankfurter Wertpapierbörse), expected to be February 4, 2021, and ending no later than 30 calendar days thereafter (the "Stabilization Period"). Stabilization transactions may result in a market price that is higher than would otherwise prevail. The Stabilization Manager is, however, under no obligation to take any stabilization measures. Therefore, stabilization may not necessarily occur, and it may cease at any time. Stabilization measures may be undertaken at the following trading venues: Frankfurt Stock Exchange, Xetra, BATS Europe, Berlin Stock Exchange, Chi-X Exchange, Dusseldorf Stock Exchange, Equiduct MTF, Eurocac Stock Exchange, Hamburg Stock Exchange, Hanover Stock Exchange, IBIS, Munich Stock Exchange, Stuttgart Stock Exchange, Turquoise MTF, VirtX Exchange.

In connection with such stabilization measures, investors may be allocated additional shares of the Company of up to 15% of the new shares and existing shares sold in the offering (the "Over-Allotment Shares"). The selling shareholders have granted the Stabilization Manager, acting for the account of the underwriters, an option to acquire up to 6,291,118 shares of the Company at the offer price, less agreed commissions (the "Greenshoe Option"). To the extent Over-Allotment Shares were allocated to investors in the offering, the Stabilization Manager, acting for the account of the underwriters, is entitled to exercise this option during the Stabilization Period, even if such exercise follows any sale of shares by the Stabilization Manager which the Stabilization Manager had previously acquired as part of stabilization measures (so-called refreshing the shoe).
